The Institute of Internal Auditors Singapore

Dear Fellow Internal Auditor,

As Global Chairman of the Board for The IIA, I want to personally invite you to attend our 2021 International Conference, a Singapore Virtual Experience, 14–18 June.

I have found this premier educational and networking event to be extremely worthwhile, both as a presenter and as an attendee. As in the past, this year's conference promises engaging, interactive, and inspiring sessions with real-world solutions and tangible takeaways.

Featuring a new five-day, entirely virtual format and two flexible viewing options, the 2021 International Conference will empower you to network with colleagues from around the globe, gain insights and tools from recognized leaders in the internal audit profession, and build important resources that will enable you to deliver even greater value to your organization.

In my chairman's theme, "Reimagining Resilience," I summon internal auditors at all levels to transform and become more agile, engaged, and resilient. This year's keynotes also will challenge you to address highly topical issues impacting the profession and to illuminate leading trends. We are excited to bring together experts from throughout the world, including Marcus East, chief digital officer at T-Mobile (and former technical director at Google and eCommerce executive at Apple), as well as artificial intelligence expert Dr. Ayesha Khanna.

Please be sure to **register by 30 April to save \$200.**

I look forward to seeing you virtually at the 2021 International Conference!

Sincerely,

Jenitha John
2020–21 Chairman of The IIA Global Board of Directors
