

WHAT YOU WILL EXPERIENCE

The Annual Conference 2023 theme of "Driving Excellence: Creating Sustainable Value with Good Governance & Control" is designed for internal auditors and GRC (Governance, Risk, and Compliance) professionals seeking to enhance their knowledge and skills in creating sustainable value through effective governance and control practices. The conference will bring together industry experts, thought leaders, and practitioners to share insights, best practices, and strategies for optimising organisational performance, mitigating risks, and driving sustainable growth.

Join us for a transformative journey as you discover:

- Key insights from thought leaders in the field of governance and control
- Proven strategies to drive excellence and achieve sustainable value
- Practical techniques for harnessing control systems to maximise organisational performance
- Navigating regulatory challenges with confidence and precision
- Integrating sustainability seamlessly into your governance and control approach
- Networking opportunities with influential professionals and decision-makers

Don't miss this opportunity to elevate your expertise, expand your network, and gain a competitive edge in today's evolving business landscape. Reserve your seat now for the "Driving Excellence: Creating Sustainable Value with Good Governance & Control" conference!
