Internal Auditors
Singapore

DON'T MISS THE CHANCE TO DISCOVER HOW TO ELEVATE IMPACT

SAVE THE DATE - 20 APRIL 2023

The public sector has a large budget to serve the growing needs of Singaporeans and businesses. As it involves the use of public funds and resources, stakeholders demand better governance and transparency amidst a challenging, volatile and uncertain environment fuelled by climate change, cyberattacks, high inflation, supply chain disruptions and regulatory changes.

Themed “**Riding the Wave of Transformation**”, the IIA Singapore 9th Public Sector Internal Audit Conference will bring together thought leaders, practitioners and subject matter experts to discuss and exchange knowledge on the trending issues impacting internal audit, risk, compliance and governance professionals working across the public sector. Participants will have the opportunity to learn best auditing practices from the leaders.

Join us and be inspired with new perspectives, and connect with fellow practitioners, industry leaders and experts at the conference.
