**STATEMENT BY THE BOARD OF GOVERNORS**

*For the year ended 31 May 2015*

---

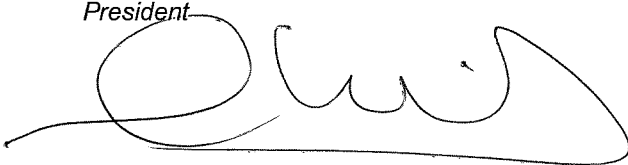

The Board of Governors is responsible for the preparation and fair presentation of the financial statements in accordance with By-Laws of The Institute of Internal Auditors Singapore (the "Institute"), Singapore Financial Reporting Standards and the Societies Act. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

In the opinion of the governors, the accompanying statement of financial position, statement of comprehensive income, statement of changes in funds and the statement of cash flows, together with the notes thereon, are drawn up so as to give a true and fair view of the state of affairs of the Institute as at 31 May 2015 and the results and cash flows of the Institute for the financial year ended on that date and at the date of this statement there are reasonable grounds to believe that the Institute will be able to pay its debts as and when they fall due.

On behalf of the Board

Eric Lim  
*President*

William Lim  
*Treasurer*

## ***INDEPENDENT AUDITORS' REPORT***

### ***TO THE MEMBERS OF THE INSTITUTE OF INTERNAL AUDITORS SINGAPORE***

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of The Institute of Internal Auditors Singapore (the "Institute"), which comprise the statement of financial position as at 31 May 2015, the statement of comprehensive income, statement of changes in funds and statement of cash flows for the year ended, and a summary of significant accounting policies and other explanatory notes.

#### *Management Responsibility to the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the By-Laws of the Institute and Singapore Financial Reporting Standards, and the Societies Act, Cap 311 (the "Act"), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### *Auditors' Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Opinion*

In our opinion, the financial statements are properly drawn up in accordance with the By-Laws of the Institute, Singapore Financial Reporting Standards and the Act and so as to give a true and fair view of the financial position of the Institute as at 31 May 2015 and of the financial performance, changes in funds and cash flows of the Institute for the year then ended on that date.

#### **Report on Other Legal and Regulatory Requirements**

In our opinion, the accounting and other records required by the By-Laws to be kept by the Institute have been properly kept in accordance with the requirements.

Public Accountants and Chartered Accountants  
Singapore 21 July 2015

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 May 2015

---

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

### 1. GENERAL INFORMATION

The Institute of Internal Auditors Singapore (the "Institute") is registered as a society and domiciled in Singapore. The registered address of the Institute is located at 6 Shenton Way #41-04 Singapore 068809.

The principal activities of The Institute of Internal Auditors Singapore, established under the Societies Act, are to provide practising internal auditors with a forum for exchanging ideas and expertise on matters of common interests, to develop their professional skills, to enhance their usefulness to the management they serve, to enhance the professional status of internal auditing in Singapore and to seek to develop a mutual understanding between interested parties regarding the possibilities and benefits of professional internal auditing.

The financial statements of the Institute were authorised for issue on the date of which the Statement by the Board of Governors was signed.

### 2. SIGNIFICANT ACCOUNTING POLICIES

#### a) Basis of preparation

The financial statements of the Institute have been prepared in accordance with Singapore Financial Reporting Standards ("FRS").

The financial statements have been prepared on a historical cost basis, except as disclosed in the accounting policies below, and are presented in Singapore Dollars (S\$).

The accounting policies adopted are consistent with those of the previous financial year except in the current financial year, the Institute has adopted all the new and revised standards that are effective for annual periods beginning on or after 1 June 2014. The adoption of these standards and interpretations did not have any effect on the financial performance or position of the Institute.

#### b) Critical accounting judgements and key sources of estimation uncertainty

The preparation of financial statements in conformity with FRS requires the Board of Governors to exercise its judgement in the process of applying the Institute's accounting policies. It also requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements, and the reported amounts of revenues and expenses during the financial year. These estimates are based on the Board of Governors' best knowledge of current events and actions.

Critical accounting estimates and assumptions used that are significant to the financial statements are discussed below:

##### (i) Depreciation of property, plant and equipment

The Institute determines the estimated useful lives and related depreciation charges for the Institute's property, plant and equipment. This estimate is based on the historical experience of the actual useful lives of property, plant and equipment of similar nature and functions. Management will revise the depreciation charge where useful lives are different to those previously estimated, or a write-off or write-down technically obsolete or non-strategic assets that have been abandoned or sold.

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 May 2015

---

### 2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### b) Critical accounting judgements and key sources of estimation uncertainty (cont'd)

##### (ii) Impairment loss recognised in respect of accounts receivable

The allowance of impairment loss in respect of accounts receivable of the Institute is based on the evaluation of collectibility and aging analysis of accounts receivable and on the Board of Governors' estimate. In determining whether impairment is required, the Institute takes into consideration the aging status and likelihood of collection. When recoverability of accounts receivable are called into doubts, specific provision of impairment loss on accounts receivable are made on the difference between the estimated future cash flow expected to receive discounted using the original effective interest rate and the carrying value.

##### (iii) Income taxes

Significant judgement is required in determining the capital allowances and deductibility of certain expenses during the estimation of the provision for income taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Institute recognises liabilities for anticipated tax issues based on estimate of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred income tax provisions in the period in which such determination is made.

#### c) Property, plant and equipment

All items of property, plant and equipment are initially recorded at cost. Subsequent to recognition, property, plant and equipment are stated at cost or valuation less accumulated depreciation and any impairment in value.

Depreciation is calculated on the straight-line method to write off the cost or valuation of the assets over their estimated useful lives of 3 years.

Fully depreciated assets are retained in the financial statements until they are no longer in use.

Depreciation methods, useful lives and residual values are reviewed and adjusted as appropriate, at the end of the reporting period.

The carrying amounts are reviewed at the end of the reporting period to assess whether they are recorded in excess of their recoverable amount, and if the carrying values exceed their recoverable amounts, assets are written down.

The residual values and useful lives, if not insignificant, are reassessed annually.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising from derecognition of the assets is included in the profit or loss in the year the asset is derecognised.

#### d) Impairment of non-financial assets

The carrying amounts of the Institute's assets are reviewed at the end of the reporting period to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

An impairment loss is recognised in the profit or loss if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets or groups of assets.

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 May 2015

---

### 2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### d) Impairment of non-financial assets (cont'd)

The recoverable amount of an asset or cash-generating unit is the higher of its fair value less costs to sell and its value in use. In assessing the value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

Impairment losses recognised in prior years are assessed at the end of the reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss has been recognised. Reversal of impairment loss is recorded in profit or loss. After such a reversal, the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

#### e) Inventories

Inventories, comprising CIA learning system pack and other educational materials, are stated at the lower of cost and net realisable value. Cost is calculated using the first-in, first-out method.

#### f) Leased assets

Where assets are financed by lease agreement that give rights approximating to ownership, the assets are capitalised as if they had been purchased outright at the values equivalent to the present value of the total rental payable during the year of the leases and the corresponding lease commitments are included under liabilities. The excess of the lease payments over the recorded lease obligations is treated as finance charges, which are amortised over each lease term to give a constant rate of charge on the remaining balance of the obligation.

#### g) Provisions

Provisions are recognised when the Institute has a present obligation (legal or constructive) where, as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at the end of the reporting period and adjusted to reflect the current best estimate. Where the effect of time value of money is material, the amount of the provision is the present value of the expenditure expected to be required to settle the obligation.

#### h) Related parties

For the purposes of these financial statements, parties are considered to be related to the Institute if the Institute has the ability, directly or indirectly, to control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Institute and the party are subject to common control or common significant influence. Related parties may be individuals or corporate entities.

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 May 2015

---

### 2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### i) Financial instruments

Financial assets and financial liabilities are recognised on the Institute's statement of financial position when the Institute becomes a party to the contractual provisions of the instrument.

##### (i) Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less allowance for impairment. An allowance for impairment of trade receivables is established when there is objective evidence that the Institute will not be able to collect all amounts due according to the original terms of the receivables. The amount of the allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The amount of the allowance is recognised in the profit or loss.

##### (ii) Cash and cash equivalents

Cash and cash equivalents comprise cash balances. For the purpose of the statement of cash flows, cash and cash equivalents are presented net of bank overdrafts (if any) which are repayable on demand and which form an integral part of the Institute's cash management.

##### (iii) Trade and other payables

Trade and other payables are recognised initially at fair value, net of transaction costs incurred and subsequently stated at amortised costs, using the effective interest method.

##### (iv) Loans and borrowings

Loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method.

Gains and losses are recognised in the profit or loss when the liabilities are derecognised as well as through the amortisation process.

#### j) Contingent liabilities and assets

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Institute. It can also be a present obligation arising from past events that is not recognised because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably. A contingent liability is not recognised but is disclosed in the notes to the financial statements. When a change in the probability of an outflow occurs so that outflow is probable, they will then be recognised as a provision.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Institute. Contingent assets are not recognised but are disclosed in the notes to the financial statements when an inflow of economic benefit is probable. When inflow is virtually certain, an asset is recognised.

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 May 2015

---

### 2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### k) Borrowing costs

Borrowing costs are recorded as expenses in the period in which they are incurred.

#### l) Income tax

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the profit or loss except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantially enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred income tax is provided using the liability method, on all temporary differences at the end of the reporting period arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Currently enacted tax rates are used in the determination of deferred income tax.

Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred tax are charged or credited to equity if the tax relates to items that are credited or charged, in the same or a different period, directly to equity.

#### m) Key management personnel

Key management personnel of the Institute are those having authority and responsibility for planning, directing and controlling the activities of the Institute. Governors are considered key management personnel.

#### n) Revenue recognition

Subscription fees and entrance fee less refunds, if any, are recognised in the financial statements on an accrual basis.

The annual subscription fee is S\$160.50 inclusive of GST, per member and the entrance fee is S\$21.40 inclusive of GST, per new member. For new members admitted in the second half of the financial year, the subscription fee is S\$80.25 inclusive of GST, per member. Annual subscription fees for corporate members range from S\$481.50 to S\$4,012.50 inclusive of GST based on the number of nominees.

Revenue from seminars and talks is recognised as income in the period in which service is rendered. Examinations fees are recognised as income in the period upon receipts of fees and completion registration of the examination with The Institute of Internal Auditor, USA.

Interest income is recognised on a time-apportioned basis.

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 May 2015

---

### 2. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

#### **o) Foreign currency transaction**

##### **(i) Functional and presentation currency**

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The financial statements are presented in Singapore Dollars, which is the Institute's functional and presentation currency.

##### **(ii) Transactions and balances**

Transactions in foreign currency are measured and recorded in Singapore dollars using the exchange rate at the date of transactions. At the end of the reporting period, recorded monetary balances that are denominated in foreign currency are adjusted to reflect the rate at the end of the reporting period. All exchange adjustments are taken to the profit or loss.

#### **p) Employee benefits**

##### Defined contribution plan

Contributions to defined contribution retirement benefit plans are recorded as an expense as they fall due. Contributions to government managed retirement benefit plans such as the Central Provident Fund which specifies the employer's obligations are dealt with as defined contribution retirement benefit plans.

##### Employee leave entitlement

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

#### **q) Government grant**

Cash grants received from the government are recognised as income upon receipt.

1 to 30 days	<b>87,613</b>	118,643
31 to 60 days	<b>25,554</b>	30,053
61 to 90 days	<b>1,786</b>	11,342
	<b>114,953</b>	160,038

### **5. OTHER RECEIVABLES**

	<b>2015</b>	2014
	<b>S\$</b>	S\$
Prepayment	<b>1,500</b>	13,379
Sundry deposits	<b>28,847</b>	28,847
Interest receivable	<b>1,883</b>	1,218
	<b>32,230</b>	43,444

### **6. CASH AND CASH EQUIVALENTS**

	<b>2015</b>	2014
	<b>S\$</b>	S\$
Fixed deposits	<b>873,053</b>	869,059
Cash and bank balances	<b>651,628</b>	520,667
	<b>1,524,681</b>	1,389,726

The weighted average effective interest rate of the fixed deposits as at 31 May 2015 ranged from 0.10% to 0.98% (2014: 0.25% to 1.18 %) per annum, with maturities of between 3 to 12 months (2014: 3 to 12 months).

## **NOTES TO THE FINANCIAL STATEMENTS**

*For the year ended 31 May 2015*

### **7. TRADE AND OTHER PAYABLES**

	<b>2015</b>	<b>2014</b>
	<b>S\$</b>	<b>S\$</b>
Trade payables	179,290	45,594
Accrued payables	36,295	20,889
GST payables	26,063	29,324
	<b>241,648</b>	<b>95,807</b>

The carrying amounts of trade and other payables approximate their fair values.

Trade payables are generally on 30 days (2014: 30 days) credit terms.

Trade and other payables are denominated in the following currencies:

	<b>2015</b>	<b>2014</b>
	<b>S\$</b>	<b>S\$</b>
Singapore Dollar	197,761	63,501
United States Dollar	43,887	32,306
	<b>241,648</b>	<b>95,807</b>

### **8. EXAMINATION FEES**

## **NOTES TO THE FINANCIAL STATEMENTS**

*For the year ended 31 May 2015*

### **10. INCOME TAX**

The Institute is liable to income tax as a trade association under Part B of the Second Schedule of the Income Tax Act, Cap.134.

	<b>2015</b>	<b>2014</b>
	<b>S\$</b>	<b>S\$</b>
Based on results for the year:		
Income tax		
- Current year	<u>-</u>	<u>7,751</u>

A reconciliation of the income tax expense from the amount of income tax expense determined by applying the Singapore statutory income tax rate on the result of the Institute is as follows:

	<b>2015</b>	<b>2014</b>
	<b>S\$</b>	<b>S\$</b>
(Deficit)/surplus before taxation	<u>(22,086)</u>	<u>299,458</u>
Tax calculated at statutory tax rate of 17%	<b>(3,755)</b>	50,908
Expenses not deductible for tax purposes	<b>1,695</b>	735
Singapore statutory stepped income exemption	-	(11,924)
Enhanced allowance	<b>(17,288)</b>	(15,500)
Tax incentives	<b>(3,995)</b>	(4,257)
Deferred tax assets not recognised	<u><b>23,343</b></u>	<u>(12,211)</u>
	<u>-</u>	<u>7,751</u>

The Institute has unabsorbed tax losses amounting to approximately S\$135,000 (2014: Nil) respectively available for offsetting against future taxable income subject to provisions of the Singapore Income Tax Act and agreement by the Comptroller of Income Tax.

### **11. OPERATING LEASE COMMITMENT**

The Institute entered into commercial property leases on its office premises. At the end of the reporting period, these non-cancellable leases had remaining non-cancellable lease terms of between 1 and 5 years.

Future minimum lease payments payable under non-cancellable operating leases are as follows:

	<b>2015</b>	<b>2014</b>
	<b>S\$</b>	<b>S\$</b>
Due within 1 year	<b>103,021</b>	112,387
Due within 1 and 5 years	<u>-</u>	<u>103,021</u>

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 May 2015

---

### 12. FINANCIAL RISK MANAGEMENT POLICIES

The Institute is exposed to financial risks arising from its operations and the use of financial instruments. The Institute does not have any written risk management policies and guidelines.

The Institute does not hold or issue derivatives financial instruments or the hedge against fluctuation, if any, in interest rates and foreign exchange.

The main risks arising from the Institute's financial statements are foreign currency risk, interest rate risk, credit risk, liquidity risk and market price risk. The Institute reviews and agrees policies for managing each of these risks and they are summarised below:

#### **Interest rate risk**

The Institute's exposure to market risk for changes in interest rates relates primarily to interest-bearing fixed deposits with financial institutions. The Institute has no policy to hedge against its interest rate risk. The Institute is in a net interest-income position during the current financial year.

#### **Credit risk**

Credit risk is the potential financial loss resulting from the failure of a customer or a counter party to settle its financial and contractual obligations to the Institute as and when they fall due. The Institute monitors the exposure to credit risk on an ongoing basis taking into consideration the credit worthiness of the customer amongst the factors considered. Credit evaluations are performed on all customers requiring credit over a certain amount. The Institute does not require collateral in respect of financial assets.

At the end of the reporting period, there is no significant concentration of credit risk. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position.

#### **Foreign currency risk**

The Institute is exposed to foreign exchange risk on transactions that are denominated in a currency other than Singapore dollars. Exposure to foreign exchange risk is monitored on an ongoing basis by the Institute to ensure that the net exposure is at an acceptable level.

The Institute pays examination fee to an institute in another country and transacted in United States dollars. As a result, it is exposed to foreign currency risk arising from the exchange rate movements of this foreign currency against the Singapore dollar. However, the Institute does not use any financial derivatives such as foreign currency forward contracts, foreign currency options or swaps for hedging purposes.

#### *Foreign currency sensitivity analysis*

The Institute's sensitivity to a 4% (2014: 1%) strengthening in United States dollar, against Singapore dollar would result in a decrease in surplus after tax for the year by S\$1,755 (2014: S\$323). The sensitivity analysis assumes an instantaneous 4% (2014: 1%) change in the foreign currency exchange rate from the end of the reporting period, with all other variables held constant. The results of the model are also constrained by the fact that only monetary items, which are denominated in foreign currency.

If United States dollar weakened against Singapore dollar by 4% (2014: 1%), with all other variables including tax rate being held constant, it would have had the equal opposite effect on the amount shown above.

## NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 May 2015

---

### 12. FINANCIAL RISK MANAGEMENT POLICIES (CONT'D)

#### **Liquidity risk**

The Institute monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by Institute to meet commitments associated with financial instruments. Liquidity risk may result from an inability to sell a financial asset quickly at close its fair value.

The Institute's liquidity risk is minimal as it maintains sufficient funds to meet its committed liabilities.

The Institute has no derivative financial liabilities. All non-derivative financial liabilities are due within 12 months.

#### **Market price risk**

Price is the risk that the value of a financial instrument will fluctuate due to changes in market prices whether those changes are caused by factors specific to the individual security or its issuer or factors affecting all securities traded in the market.

The Institute does not hold any quoted or marketable financial instrument, hence, is not exposed to any movements in market prices.

#### **Fair values**

The fair values of all the Institute's financial assets and liabilities approximate their carrying amounts.

However, the Institute does not anticipate that the carrying amounts recorded at the end of the reporting period would be significantly different from the values that would eventually be received or settled.

### 13. CAPITAL MANAGEMENT

The Institute's objectives in capital management are:

- (a) To safeguard the Institute's ability to continue as a going concern;
- (b) To support the Institute's stability and growth; and
- (c) To provide funds for the purpose of strengthening the Institute's risk management capability.

The Board of Governors of the Institute has adopted an investment strategy for the Institute's surplus funds in January 2012. The investment strategy will be periodically reviewed by the Board.

## **NOTES TO THE FINANCIAL STATEMENTS**

*For the year ended 31 May 2015*

### **14. FRS NOT YET ADOPTED**

Certain new accounting standards and interpretations have been published that are mandatory for accounting periods beginning on or after 1 June 2015. The Institute does not expect that adoption of these accounting standards and interpretations will have a material impact on the Institute's financial statements.

The Institute has not adopted the following standards and interpretations that have been issued but not yet effective:

<b>Description</b>	<b>Effective for annual period beginning on or after</b>
FRS 19 Amendments to FRS 19: Defined Benefit Plans: Employee Contributions	1 July 2014
FRS 16, FRS 38 Amendments to FRS 16 and FRS 38: Clarification of Acceptable Methods of Depreciation and Amortisation	1 January 2016
FRS 16, FRS 41 Amendments to FRS 16 and FRS 41: Agriculture: Bearer Plants	1 January 2016
FRS 27 Amendments to FRS 27: Equity Method in Separate Financial Statements	1 January 2016
FRS 110, FRS 28 Amendments to FRS 110 and FRS 28: Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	1 January 2016
FRS 110, FRS 112, FRS 28 Amendments to FRS 110, FRS 112 and FRS 28: Investment Entities: Applying the Consolidation Exception	1 January 2016
FRS 111 Amendments to FRS 111: Accounting for Acquisitions of Interests in Joint Operations	1 January 2016
FRS 1 Amendments to FRS 1: Disclosure Initiative	1 January 2016
FRS 109 Financial instruments	1 January 2018
FRS 114 Regulatory Deferral Accounts	1 January 2016
FRS 115 Revenue from Contracts with Customers	1 January 2017
<u>Improvements to FRSs (January 2014)</u>	
(a) Amendments to FRS 102: Share Based Payment	1 July 2014
(b) Amendments to FRS 103: Business Combinations	1 July 2014
(c) Amendments to FRS 16: Property, Plant and Equipment and FRS 38 Intangible assets	1 July 2014
(d) Amendments to FRS 24: Related Party Disclosures	1 July 2014
<u>Improvements to FRSs February 2014)</u>	
(a) Amendments to FRS 103: Business Combinations	1 July 2014
(b) Amendment to FRS 113: Fair Value Measurement	1 July 2014
(c) Amendment to FRS 40: Investment Property	1 July 2014
<u>Improvements to FRSs (November 2014)</u>	
(a) Amendments to FRS 107: Financial Instruments: Disclosures	1 January 2016
(b) Amendments to FRS 19: Employee Benefits	1 January 2016
(c) Amendments to FRS 105: Non-current Assets Held for Sale and Discontinued Operations	1 January 2016

The Board of Governors does not anticipate that the adoption of the above FRS in future periods will have a material impact on the financial statements of the Institute in the period of their initial adoption.
